

GoFundMe to Support American History Live Program

American History Live, a program of the American Security Council Foundation, brings history to life for students in schools and homeschools alike, using engaging, animated characters like Abigail Adams, Benjamin Franklin, Prince Hall, Alexander Hamilton, and Betsy Ross who use voice-over talent and make learning fun, memorable, and meaningful.

This program is completely free for students—but it relies on the generosity of patriots like you. Your donation helps young Americans learn, retain, and love their history. Just \$50 can provide one full class for eager students ready to explore the past that shapes their future.
